## ● Full Stack Web Developer - Final Project "CanchaYa"

Academic experience. Henry Bootcamp

October 2023 - Nov. 2023.

**CanchaYa** is a platform that allows you to search, reserve and rate courts for different sports in your city. You can filter the courts by various criteria, pay for your reservations through MercadoPago and leave reviews about your experience. You can also register your own court and manage it from an administration dashboard.

In particular, in this project my greatest contribution was:

Development and creation of page styles (with CSS modules).

Implementation of the login system.

Creation of Forms.

Front: Javascript, React, Redux, Vite.

Back: Node.js, Express.

Base de datos: PostgreSQL y Sequelize.

<https://github.com/CanchaYAPF/CanchaYA>

## ● Full Stack Web Developer - Individual Project "Videogames"

Academic experience. Henry Bootcamp

Ago. 2023.

**Videogames** is a project that allows you to learn about and explore information about different video games and even add new ones. With this project, you can filter games by their genre or rating, also search for them by name and sort them alphabetically. Additionally, you can see the details of each game, such as its description, the year it was created, the platforms on which it can be played, and its photo.

Front: Javascript, React, Redux.

Back: Node.js, Express.

Base de datos: PostgreSQL y Sequelize.
